It's an enjoyable pastime. We like to look good and express ourselves. It helps us to be creative and to stand out from the crowd.

We want to feel attractive because it makes us feel good about ourselves

Why do/don't we follow fashion?

It's too expensive, not practical and not functional. We only do it to avoid criticism. Advertising is to blame. It's elitist, stressful and costly.

It is creative and fun. We feel good when we wear the latest fashion. Dressing at the height of fashion helps us show we are modern and keeping up with the times.

It's a waste of money. It's a superficial obsession. It causes us anxiety and a lack of self confidence. It turns us into followers and fashion victims.
